

# Anders Lundstedt's resume

Last update: September 22, 2025

## Basic info

Full name    Anders Erik Vilhelm Lundstedt  
Birth year    1988  
Location    Stockholm, Sweden  
E-mail        [a@anderslundstedt.se](mailto:a@anderslundstedt.se)  
Website      <https://anderslundstedt.com>  
GitHub       <https://github.com/anderslundstedt>  
LinkedIn     <https://linkedin.com/in/anders-erik-vilhelm-lundstedt>

## Experience\*

2019–

The Scandinavian Logic Society

*Chief Technology Officer* (part-time)

My work in this role is not as fancy as my official title may suggest. I am in charge of everything technology-related. Some examples of what I do: I maintain the website<sup>†</sup>, I maintain the membership database, I handle the mailing list, I administrate the organization's Google Workspace, I assist the executive committee in technical matters, and I advise the executive committee on various matters.

2016–

Stockholm University

*PhD student* (part-time)

I am writing a thesis in theoretical philosophy, with a focus on mathematical logic. I have also—in my capacity as a PhD student with competence in formalization—refereed papers submitted to conferences or journals. Those papers I have refereed have been papers with accompanying formalizations done in interactive theorem provers.

2016–2024

Stockholm University

*Teacher* (part-time)

I taught logic to philosophy students and supervised BA theses in theoretical philosophy. I was teaching assistant in BA courses. I was lecturer in BA courses. I was teaching assistant in MA courses. I was guest lecturer in MA courses.

2017

Stockholm University

*Local Arrangements Chair of Logic in Stockholm 2017* (part-time)

I was head of everything related to the practical organization (as opposed to

the academic organization) of the Logic in Stockholm 2017 series of academic events:

- The Third Nordic Logic Summer School
- The 2017 ASL European Summer Meeting (Logic Colloquium)
- The 26th EACSL Annual Conference on Computer Science Logic.

#### 2005–2015

*Professional gambler* (part-time)

During my pre-PhD studies (both when in high school and when at university) most of my income was from professional gambling. I played poker, did betting arbitrage, and took advantage of online casinos' bonus offerings.

#### 2013–2015

[Unnamed private investor]

*Software engineer, Quantitative analyst* (part-time)

I developed an automated trading system. I analyzed and backtested trading strategies. I programmed mainly in Python.

#### 2008–2014

Atlas Copco (consultant)

*Software engineer* (part-time)

I maintained a Microsoft Access database used for pricing.

#### 2009–2013

Eiderfors & Partners AB

*Software engineer* (part-time)

I developed demo solutions within mobile payment for the platforms Android and Java ME.

#### 2011–2013

Trustly

*Software engineer* (part-time)

I was a backend developer. I programmed mostly in Java. I also worked with SQL and MATLAB.

#### 2012

KTH Royal Institute of Technology

*Teaching assistant* (part-time)

I was teaching assistant in a BSc course on numerical methods.

### Education

#### 2016–2025 (expected)

Stockholm University

*PhD in theoretical philosophy*

My thesis work is primarily within mathematical logic.\*

---

\* <https://anderslundstedt.com/research/#induction>

2013–2015

Stockholm University

*BA and MA studies in theoretical philosophy*

Thesis grade: A

Thesis: *Euklides princip och oändliga mängders storlek* (English: *Euclid's principle and the sizes of infinite sets*)<sup>\*</sup>

2011–2015

KTH Royal Institute of Technology

*MSc in mathematics*

Thesis grade: A

Thesis: *Realizability in Coq*<sup>†</sup>

2007–2011

KTH Royal Institute of Technology

*BSc in engineering physics*

Thesis grade: A

Thesis: *The Effects of Asset Return Correlation Errors in the CreditMetrics Framework*<sup>‡</sup>

2007–2015

KTH Royal Institute of Technology

*MSE in engineering physics* (Swedish: *Civilingenjör i teknisk fysik*)

This degree was awarded jointly with the two above ones.

## Main competences

- Mathematics
- Philosophy
- Programming
- Formal methods
- Microsoft Excel<sup>‡</sup>
- Typesetting
- Writing clearly

## Languages

- Swedish  
mother tongue
- English  
fluent

## Programming languages, frameworks, tools, et cetera<sup>\*</sup>

- Python  
proficient
- Pandas (Python data analysis library)  
proficient
- Coq/Rocq (interactive theorem prover)  
proficient
- Java  
proficient a long time ago<sup>†</sup>
- C++  
proficient a long time ago<sup>‡</sup>
- C#  
proficient a long time ago<sup>‡</sup>
- SQL  
intermediate
- Parsing and compiler construction  
intermediate
- Git  
proficient
- Linux  
proficient
- Nix the language, NixOS, Nix the ecosystem, and related tools  
intermediate
- MATLAB  
proficient
- Jekyll (static site generator)  
proficient

---

<sup>\*</sup> To describe my respective levels of competence I use the scale: beginner, advanced beginner, intermediate, proficient, expert.

<sup>†</sup> I have not programmed in Java since 2013.

<sup>‡</sup> I have not programmed in C++ since 2011.

<sup>‡</sup> I have not programmed in C# since 2010.

- HTML  
proficient
- CSS  
proficient
- Prolog  
intermediate
- Mercury<sup>\*</sup>  
intermediate
- Spin<sup>†</sup> (model checker for verifying concurrent software)  
advanced beginner
- SPASS (automated theorem prover)<sup>‡</sup>  
proficient
- LaTeX  
proficient
- Unicode  
proficient
